ACKNOWLEDGMENTS

First I would like to thank Professor Roy Delp for his constant guidance and mentoring during my tenure at Florida State University and beyond. I would also like to express my gratitude to my committee members, Professors Janice Harsanyi, Larry Gerber and Timothy Hoekman, for their help on this project and in all my other endeavors while at Florida State.

My family and friends constantly provide me with love, inspiration and encouragement. To them I will always be grateful.

Finally, I would like to express my deepest appreciation for my husband Jon. He has helped me in so many different ways throughout this undertaking. I am thankful for his patience, moral support, hours and hours of editing, but mostly for his ability to make me always laugh.

ABSTRACT

There are large numbers of voice students being taught by graduate teaching assistants in university systems. Because so many students may be under the tutelage of inexperienced teachers, it is important that teaching assistants become knowledgeable about the basic elements of vocal pedagogy and made aware of the available resources for assistance.

The purpose of this treatise is to provide a practical guide for first-year graduate teaching assistants in voice. Six different elements of vocal pedagogy are discussed: 1) diagnosing and correcting vocal faults, 2) vocalizing, 3) selecting appropriate repertoire, 4) teaching interpretation, 5) coaching languages, and 6) establishing studio policies and teacher-student rapport. Within the scope of this treatise, general guidelines are provided for these aspects of teaching as well as specific recommended reference sources.
